CURRICULUM VITAE

KATEREGGA JOSEPH TRAVOUR

BACHELOR OF SCIENCE IN COMPUTER SCIENCE

Location: Kampala, Uganda

Tel: +256 726 053473 | +256 771 263217

Email: katereggajosephtravour17@gmail.com
travourstak22@gmail.com

OBJECTIVE

Motivated and Detail-oriented Computer science graduate seeking an opportunity to leverage hands-on experience in IT support, system maintenance, and foundational software development. Eager to apply practical skills in troubleshooting, database concepts, and system design within a technology-driven organization to contribute to operational efficiency and innovative software solutions.

TECHNICAL SKILLS

- **Programming & Software:** Java, Python, and foundational JavaScript.
- **Database Management:** Knowledge of SQL and core database concepts.
- **Systems & IT Support:** Skilled in hardware/software troubleshooting and routine system maintenance to optimize performance.
- **Productivity Tools:** Proficient in Microsoft Office (Word, Excel, PowerPoint).
- **Core Concepts:** Software development fundamentals, system architecture design, and algorithmic problem-solving.

PROFESSIONAL EXPERIENCE

IT Intern

Victoria University Market Street | *(June – August 2025)*

- Assisted in routine system maintenance and hardware/software troubleshooting to reduce technical downtime.
- Provided comprehensive user support and basic technical assistance to end-users, ensuring quick conflict resolution.
- Gained practical, hands-on experience navigating real-world IT environments and infrastructure deployments.

PROJECTS

Smart Hostel Management System

- Designed the core system architecture and backend logic.
- Implemented fundamental database concepts to manage user records, room allocations, and information flows securely.

Academic Software Projects

- Developed coursework-based applications applying structured programming principles, testing methodologies, and functional problem-solving.

Automated Transcript Request & Digital Verification System

- **System Architecture:** Designed and mapped out a secure, role-based web application to automate the end-to-end academic transcript request lifecycle for university graduates.
- **Request Lifecycle Logic:** Developed the backend workflow routing, allowing students to securely initiate requests, track real-time approval status across administrative departments, and process clearance checkpoints automatically.
- **Digital Verification & Security:** Engineered data validation mechanisms to prevent duplicate requests and implemented cryptographic verification principles to secure student records, ensuring authentic transcript generation and fraud prevention.
- **Database Design:** Structured relational database schemas using SQL concepts to securely manage, index, and query academic data, student profiles, and processing logs

Care Axis Agency System

- **System Concept:** Designed and mapped out an agency-level system tailored for care management, focusing on optimizing workflow coordination, service tracking, and resource allocation.
- **Workflow Optimization:** Developed logic to streamline scheduling, client record tracking, and communications between care providers, administrators, and clients.
- **Data Management & Privacy:** Implemented role-based permissions and secure data handling procedures using database concepts to protect sensitive client profiles and operational logs,

KEY COMPETENCES & SOFT SKILLS

- **Teamwork:** Strong belief in collaboration and team building as a basis for project success.
- **Adaptability:** Quick learner who easily adjusts to evolving technologies and fast-paced environments.
- **Time Management:** Highly organized with an ability to manage project tasks and meet strict deadlines.

- **Problem-Solving:** Analytical mindset geared toward identifying technical root causes and executing solutions.

- **EDUCATION BACKGROUND**

Institute / Course	**Year**	**Award / Status**
Uganda Martyrs University (Nkozi, Mpigi)	2023 – 2026	Bachelor of Science in Computer Science
St. Cyprian High School Kyabakadde (Naggalama)	2022	Uganda Advanced Certificate of Education (UACE)
Our Lady of Good Counsel (Gayaza)	2015 – 2018	Uganda Certificate of Education (UCE)
St. Charles Lwanga Primary School (Kanyanya)	2005 – 2014	Primary Leaving Examinations (PLE)

INTERESTS

- Technology Innovation
- Software Development & Architecture
- Technical Research
